WEATHER KEY POINTS

10/30/20 - 11/05/20

Friday-Thursday

- A warming trend and lighter winds are expected through next week, though fire weather conditions will remain elevated due to continued dry fuels and dry weather across the state.
 - Gusty winds are possible across parts northern interior and NE CA today and Saturday, bringing brief critical fire weather concerns.
 - Increased offshore winds are expected across southern coastal CA late Saturday night through Monday, bringing another round of elevated to critical fire weather conditions to the area.
- Light precipitation is possible across far northern California early next week, but rain amounts do not appear significant at this time
